CALIFORNIA

HOOPES family Oakville Cabernet Sauvignon

OAKVILLE

CABERNET SAUVIGNON

The History

Hoopes Vineyard is located in the southernmost part of Oakville, where Yount Mill Road divides the Oakville and Yountville sub-appellations of Napa Valley. The vineyard grows vigorously. Nestled against a hill, and sitting firmly in the flood zone of the Napa River, the vineyard has uniquely diverse and fertile alluvial soils despite the 10-acre size. Farmed and picked by hand, the unique Hoopes fruit receives the highest attention throughout the entire grapegrowing process. The microclimate is very cool in the evening and enjoys mostly moderate heat throughout the day..

The Grape

97% CABERNET SAUVIGNON, 3% MERLOT

Tasting Note

Rich, deep wine. It is juicy, with layers of dark cassis, blackberry and cherry, as well as elements of coal, baking spices, leather and graphite. I love how this wine opens up and pops in the mouth with complexity on the nose, but freshness on the palate. This wine follows through to a lovely finish with supple tannins."
