### **The History**

The vineyards are situated in a natural amphitheater around the Château and the vines themselves are planted in sandy soils resulting from the disintegration of the granite bedrock. These are poor, thin, acidic soils where we can still see projections of the underlying rock. We cultivate our vines in ways that safeguard the environment. Respect of the soil is a priority, which is why we practice grassing-over between the vines in many plots. Other vineyard methods are used in order to prevent soil compaction and to look after the microbiology. The vines are trained either in the traditional low “Goblet” style or «Cordon de Royat» style allowing better aeration of the crop. Average age of the vines : 45 years.

### **The Grape**

100% Gamay

### **Tasting Note**

Des Tours shows how good Cru Beaujolais can be at a price that is an outstanding value. Medium ruby in color with brilliant reflections. The bouquet is dominated by violets with red and black fruit aromas along with a touch of spiciness. The palate is rich and round and medium-bodied. The tannins are soft and supple, framing fruit flavors which are mouth-watering. Fresh-picked black cherries, dark raspberries, plum and warm spices are ripe and juicy.

Drink now through 2021.
