The History

The **vineyards** are located in the most propitious areas of the valley, starting from the river (100 m a.s.l.) and climbing up as far as Villamagna (460 m a.s.l.). Each vineyard has its own different pedo-climatic characteristics, good exposure to the sun and a soil which is rich in stones and organic substances.

Tasting Note

On the nose, there were aromas of red and dark fruits, mocha, vanilla and spice. On the palate, it was medium bodied, elegant with good acidity and silky tannins.
