Scirus Rosso

The History

The vineyards are located in the most propitious areas of the valley, starting from the river (100 m a.s.l.) and climbing up as far as Villamagna (460 m a.s.l.). Each vineyard has its own different pedo-climatic characteristics, good exposure to the sun and a soil which is rich in stones and organic substances

Tasting Note

Intense red fruit aromas, especially red currants and raspberries, are amplified by light hints of vanilla and coffee sensations. This full-bodied wine is pleasantly lingering with soft, sweet tannins.

Food Pairing

Red Sauce Pasta , Grilled Meats
