Bordeaux

Château Grand Renom Bordeaux Red

Bordeaux Blend

The History

Château Grand Renom is located in Eynesse, on the edge of the Bordeaux wine-growing district and the Gironde department, just 60 kilometers east of Bordeaux.

There are 3 main types of soil at Grand Renom. Clay-limestone soil on the hilltops, on a subsoil of fossil-rich limestone. Another section is composed of a mixture of silt, clay and sand, giving good balance to the soil. Finally, a fairly deep zone of clay on a subsoil of soft Agen sandstone. The soil retains water, making it available in limited quantities to the vines, thus maintaining hydric stress. This is perfect for grape quality and concentration in aromas and tannins.

The Vineyard

The estate's 36-hectare vineyards, perched at an altitude of 80 meters, are mainly composed of Merlot and Cabernet Franc, plus Sauvignon Blanc and Muscadelle, for the production of white Bordeaux wines.

The grape

80% Merlot, 20% Cabernet Franc

Tasting note

A fruity, rich wine, with a beautiful ruby-red colour. Delicate notes of red and black fruit (blackcurrant, blackberry, cherry) enhanced by a hint of woodiness. Balanced on the palate, the attack is full bodied and pleasant. Tannins are silky and delicate with fine aromatic freshness.
