CUVELIER LOS ANDES "VIN NATURE"

MENDOZA

The History

The Cuvelier Los Andes S.A. vineyard was planted in 1999 with a density of 5500 plants per hectare. Today the vineyard stretches over 55 hectares (136 acres) with 10 hectares still to plant. The main grape variety is Malbec. We have also planted Cabernet Sauvignon, Merlot, Syrah and Petit Verdot. This enables us to create our own blended vines and also contribute to those of Clos de los Siete. Basking in the warm, dry climate of Mendoza, cooled by the refreshing night air of the Andes, our vines are ideally situated to express the character of their various grape varieties in this stony, alluvial gravel soil.

The Grape

55% Malbec ; 45% Merlot

Tasting Notes

A dry and windy period during the flowering cycle delivered an excellent fruit set as well as healthy and perfectly shaped clusters.

Despite its challenges, the 2019 vintage offers our signature taste profile with a little extra freshness
