Cuvelier Los Andes

Vin Nature

The History

The Cuvelier Los Andes S.A. vineyard was planted in 1999 with a density of 5500 plants per hectare. Today the vineyard stretches over 55 hectares (136 acres) with 10 hectares still to plant. The main grape variety is Malbec. We have also planted Cabernet Sauvignon, Merlot, Syrah and Petit Verdot. This enables us to create our own blended wines and also contribute to those of Clos de los Siete. Basking in the warm, dry climate of Mendoza, cooled by the refreshing night air of the Andes, our vines are ideally situated to express the character of their various grape varieties in this stony,

alluvial gravel soil.

THE GRAPE

55% Malbec, 45% Merlot

WINE-MAKING

In accordance with our organic and biodynamic practices, our wines are fermented with indigenous yeasts. In this Cuvee Nature, early harvest, shorter maceration and without barrel aging and 30% carbonic maceration to achieve a natural, fruity and easy to drink wine. No added sulfites April 2023.

TASTING NOTE

A dry and windy period during the flowering cycle delivered an excellent fruit set as well as healthy and perfectly shaped clusters. Despite its challenges, the new vintages offer our signature taste profile with a little extra freshness
