Mendoza

Cuvelier Los Andes

Rose Coleccion

The History

The Cuvelier Los Andes S.A. vineyard was planted in 1999 with a density of 5500 plants per hectare. Today the vineyard stretches over 55 hectares (136 acres) with 10 hectares still to plant. The main grape variety is Malbec. We have also planted Cabernet Sauvignon, Merlot, Syrah and Petit Verdot. This enables us to create our own blended wines and also contribute to those of Clos de los Siete. Basking in the warm, dry climate of Mendoza, cooled by the refreshing night air of the Andes, our vines are ideally situated to express the character of their various grape varieties in this stony, alluvial gravel soil.

THE GRAPE

100% Malbec

WINE-MAKING

Direct press Rosé. Skin maceration for 4 hours in the press. Alcoholic fermentation in stainless steel tank for 30 days at low temperature (60°F). Cold stabilization for 15 days, filtration and bottling in April 2023.

TASTING NOTE

The wine has a light, attractive and delicate pink salmon color. Its nose is intense and complex with fresh plum and floral notes. Very refreshing in the mouth with a crisp natural acidity, tasty and with a long and delicate finish.
